

## Health Care Clinics/Immediate Care Centers

In general, medical conditions treated at these clinics can include: cut, sprains, sore throat, common colds, cough, and back pain. Most health insurance plans (Medicare, Medicaid, private insurance, workers' compensation, and private plans) will cover and reimburse clinic visits; some may have waived co-pay fees at these clinics. Fees and coverage vary, so request prices for services. Most clinics can refer patients to local doctors or emergency rooms and the availability of these clinics can help people avoid emergency rooms
